

We make it **possible**

# Suspension Components

## Medium & Heavy Duty Trucks

- » Rugged construction designed and built for on- or off-highway usage and diverse loading conditions.
- » Load capacity and deflection capability specifically designed for suspension stiffness and travel requirements.
- » Custom elastomer formulations for fatigue resistance and durability.
- » Suspension bushings feature pre-compressed elastomer providing:
  - Longer life than conventional lubricated suspension bushings and bearings.
  - Typically last the life of the suspension.
  - Maintenance-free operation, no lubrication required.
  - Ease of installation.
